STUDIO RATE SHEET

STUDIO Full Studio Access £600 per day

Vocal Recording from - £35ph

Editing / Processing – from £40ph

Mixing from £100pm

Digital Mastering - from £60

Analogue Mastering - from £80

PRODUCTION RATE SHEET

STUDIO Single Production – Producer / Engineer from - £10K

Custom-made Music from - £5k

Production - from £250ph

Package 1 – Record & Process - £299

Package 2 – Record, Process & Mix - £399

Package 3 – Record, Process, Mix & Master - £499

Package 1: Record & Process

Processing your recorded vocals:

Your recorded stems will be put through our software and plugins to ensure your vocals are at the highest standard and ready for the mix down stage. We can run your vocal chain through either Melodyne or Antares Autotune. Equalisation, Compression and moderate Limiting will be applied at this stage for an industry standard sound.

Package does NOT include Mixing.

Package does NOT include Mastering.

For £299.99, Get your Vocals Recorded & Processed.

If you come fully prepared, you can have your vocals recorded within 2 hours. If more time is needed, additional hours can be added to your vocal recording session if there is availability on the day of your booking.

Package 2: Record, Process & Mix

For £399.99, Get your Vocals Recorded, Processed & Mixed.

If you come fully prepared, you can have your vocals recorded within 2 hours. If more time is needed, additional hours can be added to your vocal recording session if there is availability on the day of your booking.

Your recorded vocals will be put through software to ensure your vocals are prepared for the mix down. We can run your vocal chain through either Melodyne or Antares Autotune. Equalisation, Compression and moderate Limiting will be applied at this stage.

After the Audio Processing stage, all track stems will be routed to our Main Studio Mixer. Equalisation, Compression, Limiting and Effects will also be applied at this stage of the process.

Once mixing is complete, the mix is recorded back in our DAW where a RAW stereo recording will be stored and provided to you. (Please Note – Mastering is NOT applied with this package.)

Package 3: Record, Process, Mix & Master

Your recorded vocals will be put through software to ensure your vocals are prepared for the mix down. We can run your vocal chain through either Melodyne or Antares Autotune. Equalisation, Compression and moderate Limiting will be applied at this stage.

After the Audio Processing stage, all track stems will be routed to our Main Studio Mixer. Equalisation, Compression, Limiting and Effects will also be applied at this stage of the process.

Once mixing is complete, the mix is recorded back in our DAW where a RAW stereo recording will be stored and provided to you. (Please Note – Mastering is applied with this package.)

With this package, your RAW stereo recording will be processed through our SPL Mastering Chain for your commercial radio release.

For £499.99, Get your Vocals Recorded, Processed & Mixed.

If you come fully prepared, you can have your vocals recorded within 2 hours. If more time is needed, additional hours can be added to your vocal recording session if there is availability on the day of your booking.
